Advice clinic for parents or carers with Clinical Psychologist

The types of concerns that are typically discussed include dealing with behavioural issues, helping children to deal with worry or grief or challenges in life. Parents also come with questions about whether or not they should be concerned about a child's development and if they should seek a referral to a particular service. Parents/carer's attend the clinic without children. This allows for an honest, open discussion with the Psychologist. As it is a Drop-In Clinic no appointment is necessary. It operates on a first come, first served basis. Each clinic has 4 slots of 30 minutes in which the Clinical Psychologist can meet with parents on a one-to one basis. Parents will not be expected to discuss concerns with other parents/carers. **Where and when is it held;** The Clinic is held in Loughlinstown Health Centre (phone: 01-2822122) on the 2nd Tuesday of every month from 9.30am to 12.00pm. Phone in advance to ensure the clinic is running on a specific week.
